EXPERIENCE:

LLM DESIGN

Boston, MA
Aug 2014 - Present

SENIOR DESIGNER (2019 - Present)

- Coordinate project-based stakeholder research and create research summary documents to inform design direction.
- Independently create design concepts based on client briefs and stakeholder and precedent research.
- Facilitate design meetings by clearly presenting and communicating research, deliverables, design concepts and schedule to clients.
- Collaborate with fellow designers to brainstorm brand identities, project concepts, iterations and final designs.
- Execute project concepts by designing or illustrating large scale wall graphics, exterior and interior wayfinding and signage for temporary and permanent installation using Adobe Illustrator and InDesign..
- Create detailed design production and installation documents for implementation with print vendors, fabricators or outside contractors.

DESIGNER (2014-2019)

- Worked with design director and creative director to develop project concepts based on client brief.
- Designed or illustrate large scale wall graphics, wayfinding and signage, digital and print brochures, brand guideline books, research documents, invitations and presentations using Adobe Illustrator and InDesign.
- Created concept presentation documents for client approval as well as installation documents and print files for implementation with outside contractors.
- Communicated with architects, project managers, fabricators, printers, outside vendors and clients to complete project deliverables.
